50. What preparation is needed to fill the choices?

It is very important to study about the courses available in all the participating institutes. One may visit their official website, talk to persons who know about them or even may visit the institutes personally and see where and how are the institutes.

class or three year diploma/engineering, sub-category etc. Please ensure that you fulfil those criteria.

51. What is the best strategy of choice filling?

Each choice of institute or branch must be such that you know completely what you are asking for. Include only those choices in your list where you are really prepared to go if you get an allotment. One must refrain from ambling or take-a-chance approach. No choice should be included in halfhearted manner. It should not happen that after getting an allotment you say Oh! I did not want it. If that is so, it should not have been in the list of choices.

Maintaining strict order of preference is also very important. Assume that what you really want is at no. 17 in your list but you get choice no. 13. In the subsequent rounds, choice no. 1 to 12 only will be considered.

Thereafter, the cancellation and refund/forfeiture will be handled by the allotted institute as per their rules.
